4. FIRST AID MEASURES

First aid measures

Inhalation

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a physician if you feel unwell. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.

Eye contact	Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Call a physician immediately.
Ingestion	Rinse mouth. Do NOT induce vomiting. Drink plenty of water or milk immediately.
Skin Contact	Wash off immediately with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing before reuse. If skin irritation persists, call a physician.

Most important symptoms and effects, both acute and delayed

Symptoms	Causes eye irritation. Causes skin irritation. Inhalation of fumes or acid mist can cause irritation or corrosive burns to the upper respiratory system, including nose, mouth and throat.
-----------------	--

Indication of any immediate medical attention and special treatment needed

Note to physicians	Treat symptomatically.
---------------------------	------------------------

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Small Fire	Dry chemical.
-------------------	---------------

Unsuitable Extinguishing Media Avoid using solid water streams near ruptured tanks.

Specific hazards arising from the chemical

Prolonged temperatures above 300 degrees C will eventually evaporate the water and sulfur trioxide will be given off.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet. Ventilate affected area. No smoking in spill area.
-----------------------------	--

Methods and material for containment and cleaning up

Methods for containment	Prevent further leakage or spillage if safe to do so.
Methods for cleaning up	Dilute small spills or leaks with plenty of water. If in a confined area, neutralize residue with alkali such as soda ash or lime.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling	Use personal protective equipment as required. Use only in well-ventilated areas. Wash face, hands and any exposed skin thoroughly after handling. Avoid breathing vapors or mists.
--------------------------------	---

Conditions for safe storage, including any incompatibilities

Storage Conditions Keep containers tightly closed in a dry, cool and well-ventilated place. Store locked up. Protect from freezing. Protect from direct sunlight.

Incompatible materials Contact with reactive metals, such as zinc, will result in the evolution of hydrogen.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION
